and Community School Districts #2, 3 and 9.

Computers in Schools Project: MEETING for EDUCATORS

The computer based word processor is rapidly replacing the typewriter. Some people think that this tool could have a major impact on education in the area of writing.

Mr. Fred Hechinger, President of the New York Times Company Foundation and former Education Editor of *The New York Times*, an expert on writing and on education will speculate about how this tool might affect the processes of writing and learning to write.

Also at the meeting will be teachers from the Computers in Schools Project, Vivian Kalish P.S. 166, Angela Cordaro CEEE, Sylvia Haron, P.S. 41M; Lillian Salazar, P.S. 6M; Paula Linker, P.S. 6M; Steve Siegelbaum, JHS 118M; Peter Rentoff, JHS 118M; Arnette Jackson, CES 229X; Marion Hollingsworth, CIS 229X; Thomas Hendricks, CES 64X. They will describe what they have observed in their classes of the ways in which computer use has altered children's relationship with the printed word.

DATE: Tuesday, March 10, 1981
PLACE: New York Academy of Sciences
2 East 63rd Street
New York, New York 10021

TIME: 7:00 P.M.
